

The VELCO logo is displayed in a bold, white, sans-serif font. It is positioned in the upper left corner of the slide, set against a background image of a Vermont landscape with rolling hills and power lines.

VERMONT'S TRANSMISSION RELIABILITY RESOURCE

ISO-NE update

September 2014

Markets Committee Highlights

- Effort to allow solar generation to reduce the installed capacity requirement for the region. Can save New England significant monies.
- FERC approved winter fuel procurement program.

Reliability/Planning highlights

- VELCO/ISO presented VELCO K31 line rebuild proposal at Planning advisory committee.
- Making changes to Elective Transmission Upgrade (ETU) process

Other Regional Highlights

- New ISO-NE board member: Roberto Denis.
- ISO-NE & NESCOE budget approval.
